

# Endorsement Form for Michigan's Humane Euthanasia and Anti-Pound Seizure Bills

**(This form is only for businesses, shelters, professionals, etc., and not for individuals)**

Please check all that you support:

I support HB 4263, which will prohibit euthanasia by gas chamber and require that all animal shelters and Class B dealers use humane euthanasia by injection.

I support HB 4663, which will eliminate pound seizure in Michigan animal shelters. The following activities will be exempt under this bill: (1) veterinary teaching opportunities to spay/neuter a shelter animal before being placed for adoption; (2) veterinary teaching opportunities to correct a pre-existing medical condition of a shelter animal before being placed for adoption; and (3) non-fatal blood-banking procedures of a shelter animal before being placed for adoption.

The undersigned individual, animal shelter, animal rescue organization, agency and/or business supports the legislation as indicated above.

By signing this form, I agree that my name and/or business name and city may be used on a website to raise awareness regarding pound seizure in Michigan, as well as in informational packets to Michigan legislators. I may also receive emails containing updates on the bills.
